Digital Signage

Safety first
Ensure those crucial but easily forgotten messages are reinforced, such as warning workers about specific hazards or conditions and Covid-safe site procedures.

Live Data
Keep everyone up to date with live site statistics, pulling site data directly from the MSite system in real time.

Easy user interface
Upload your own content via an easy-to-use interface.

BREAKING NEWS

UK Construction Output up 35% In 2022
This is a live news ticker from BBC or Construction News

MSite Digital Signage displays important worker, visitor and site information, such as safety reminders, across TV screens on your site. Send vital information to your entire workforce and site visitors instantly.

Schedule special messages
Write and schedule your messages in advance – great for welcoming VIP visitors to site.

Branded layout
Fully branded layouts are available. You can then choose from 60+ ready-made topics, such as health & safety, occupational health and more.

Digital Approach
MSite's digital approach keeps workforce communications paperless, vastly reducing administrative effort and reducing the risk of COVID-19 spreading on paper forms.

Content Library
In addition to your own content, you can choose from our ready-made content library, featuring things like local weather reports and transport updates.
